

Commercial Dishwasher Servicing Checklist

Max Appliance Ottawa - Kitchen Operator Guide 2026

Daily and Weekly Upkeep

- 1 Scrape and pre-rinse every load**
Keeps food out of the spray arms and drain.
- 2 Empty the scrap tray or filter each shift**
Prevents clogs and standing debris.
- 3 Wipe and inspect the door gasket**
Catch cracks and poor seals before they leak.
- 4 Run the deliming cycle on schedule**
Use an approved product to fight hard-water scale.
- 5 Log wash and rinse temperatures**
Daily numbers reveal drift before a failure.

Call a Technician When You See

- 1 A lukewarm or low final rinse**
A sanitizing failure on a high-temp machine.
- 2 Water pooling around the unit**
Safety and water-damage risk, take it out of service.
- 3 New grinding or knocking noises**
A wearing pump, motor, or bearing.
- 4 Film or food that returns after cleaning**
The machine needs service, not another cycle.
